

# CAREER CENTER NEWSLETTER

This regular newsletter from the **GFZ Career Center** will inform all researchers at the GFZ about career planning, career advice and networking opportunities.

This month the topic is us! The Career Center actively promotes the career development of all (post)doctoral researchers at the GFZ.

## Geo Postdoc Session - GPS

Our one-hour virtual sessions offer first-hand insights, expert presentations, mutual discussions and the chance to address your questions on topics related to a career in academia. Also, they are a great opportunity to connect with other researchers at the GFZ.

## Alumni Stories

We introduce the career paths of our GFZ Alumni, taking a closer look into jobs outside academia.

Through short interviews we present careers which are relevant, interesting and diverse for GFZ researchers.

ALUMNI

## Career Counseling

Make a one-to-one appointment with the Career Center to discuss... job applications, what to do after your postdoc, is industry a good alternative for you, how to balance science & life, how to deal with conflicts...

## Events & Online Resources

- GPS Outreach and Science Communication - How can it benefit your career? 16 November
- Interested in becoming a Postdoc Representative? For more information contact: [postdoc-reps@gfz-potsdam.de](mailto:postdoc-reps@gfz-potsdam.de)
